1. NATURE OF OPERATIONS AND GOING CONCERN

EDM Resources Inc. (formerly ScoZinc Mining Ltd.) (the "Company" or "EDM"), and its wholly owned subsidiary Scotia Mine Limited (collectively, the "Group") is engaged in base metals mining and related activities, including the exploration and evaluation of mineral property interests that are considered to have the potential for economic mineralization and development. The Company is a public company, which is listed on the TSX Venture Exchange, incorporated on March 9, 2004, and domiciled in Canada. The address of its registered office is Purdy's Wharf, 1959 Upper Water Street, Suite 1301, Nova Scotia, B3J 3N2.

On January 12, 2022, the Company changed its name to EDM Resources Inc. On March 25, 2022, the Company changed the name of its wholly owned subsidiary to Scotia Mine Limited.

The condensed interim consolidated financial statements have been prepared on a going concern basis, which assumes the Company will continue in operation through the fiscal year and into the foreseeable future and will be able to realize assets and discharge its liabilities and commitments in the normal course of operations at the amounts stated in the condensed interim consolidated financial statements.

The Company has not generated revenue from operations. The Company has incurred a loss of \$479,821 for the three months ended March 31, 2023 (three months ended March 31, 2022 – \$336,306), and as of that date has an accumulated deficit of \$79,629,129 (December 31, 2022 – \$79,149,308). As at March 31, 2023, cash amounted to \$289,465 (December 31, 2022 – \$332,935), and the Company had working capital deficiency of \$(275,745) (December 31, 2022 – \$154,979). The ability of the Company to carry out its planned business objectives is dependent on its ability to raise adequate financing from lenders, shareholders, and other investors and/or generate operating profitability and positive cash flow. There can be no assurances that the Company will continue to obtain the additional financial resources necessary and/or achieve profitability or positive cash flows. If the Company is unable to obtain adequate financing, the Company will be required to curtail operations, and development activities and there would be significant uncertainty whether the Company would continue as a going concern and realize its assets and settle its liabilities and commitments in the normal course of business.

At March 31, 2023, the Company had sufficient cash on hand to meet all planned exploration, development, general expenses, and property payments for the next twelve months. The Company plans to raise additional capital to further develop and explore its project, however the Company may increase or decrease expenditures as necessary to adjust to a changing capital market environment.

The above factors indicate the existence of material uncertainties that may cast significant doubt on the ability of the Company to continue as a going concern.

The condensed interim consolidated financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern. If management is unsuccessful in securing capital, the Company's assets may not be realized, or its liabilities discharged at their carrying amounts and these differences could be material.

2. ACCOUNTING POLICIES

Statement of Compliance

These condensed interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC. These condensed interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2022.

These condensed interim consolidated financial statements were authorized for issuance by the Board of Directors of the Company on May 23, 2023.

Basis of Presentation

These unaudited condensed interim consolidated financial statements have been prepared on a historical cost basis, except for financial instruments which are measured at fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

In the preparation of these unaudited condensed interim consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of expenses during the period. Actual results could differ from these estimates.

Basis of Consolidation

These condensed interim consolidated financial statements include the accounts of the Company, and its active subsidiary, Scotia Mine Ltd. All significant intercompany transactions are eliminated on consolidation.

3. CASH HELD FOR RECLAMATION

The Company is required to make reclamation deposits in respect of its expected rehabilitation obligations as set out below.

The Company has agreed with the Province of Nova Scotia (Department of Natural Resources) to remediate the Scotia Mine facility to an agreed status at the end of the mining operations at the site; as a result the Company is required to make reclamation deposits in respect of this obligation. As at March 31, 2023, a \$2,982,186 (December 31, 2022 – \$2,973,712) cash bond, including accrued interest, is posted with the Province of Nova Scotia.

In addition, the Company has a reclamation bond with the Nova Scotia Department of Environment for \$196,248 (December 31, 2022 – \$195,705), including accrued interest, which is required to address the potential replacement of domestic water supplies that could potentially be downgraded by mining operations.

Nova Scotia Business Inc. ("NSBI") holds a reclamation bond in the amount of \$nil (2021 – \$nil), in relation to the land which the Company leases from the organization in Sheet Harbour. The Company terminated its lease during the year ended December 31, 2020, and during the three months ended March 31, 2022, \$nil (December 31, 2022 – \$nil) in site remediation costs were incurred in addition to the amount of the bond for a total of \$nil (2022 – \$nil). NSBI has withheld the bond, pending determination of additional remediation costs which may be assessed to the Company, if any. The Company has disputed withholding the bond and the parties have commenced formal litigation procedures to resolve the matter. It is the Company's position that it has met if not exceeded its obligation.

Scotia Mine Project, Nova Scotia

As part of the business acquisition of ScoZinc Limited on May 31, 2011, the Company acquired 100% of the Scotia Mine and several other mineral resource prospects in Halifax, Nova Scotia. The properties are comprised of exploration licences and a mineral property lease that provides for zinc, lead and gypsum exploration and development.

8. DECOMMISSIONING LIABILITY

The Company has estimated that the present value of future rehabilitation costs required to remediate the Scotia Mine facility based on its current state.

Although the ultimate amount of the rehabilitation liability is uncertain, the best estimate of these obligations is based on information currently available. Current significant closure and rehabilitation activities include dismantling and removing facilities, equipment removal and remediation of the mine site.

The total amount of estimated undiscounted cash flow required to settle the Company's estimated obligation as at March 31, 2023 was \$13,692,006 (December 31, 2022 - \$13,692,006). The calculation of present value of estimated future cash flows assumed a discount rate of 3.27% (2022 - 1.27%) and an inflation rate of 2.4% (2022 - 4.8%). Rehabilitation costs are estimated to be settled at various dates between 2029 and 2032.

a) Stock Option Plan

A stock option plan ("Plan") was established to provide incentive to qualified parties to increase their proprietary interest in the Company and thereby encourage their continuing association with the Company. Each year, shareholders of the Company approve the Plan at the Annual General Meeting. The Plan provides that the Board of Directors of the Company may from time to time, in its discretion, grant to directors, officers, employees and consultants of the Company, or any subsidiary of the Company, the option to purchase common shares. The Plan provides for a floating maximum limit of 10% of the outstanding common shares of the common shares as permitted by the policies of the TSX-V. Options under the Plan have terms and vesting as determined by the Board. The expiry date shall not be more than 10 years from the date of grant.

On February 16, 2023, the Company issued a total of 26,786 RSUs to an officer of the Company, with a fair value of \$15,000. These RSU's vest on February 16, 2024.

As at March 31, 2023, there were 138,739 (December 31, 2022 – 138,739) restricted stock units issued and outstanding.

11. BASIC AND DILUTED LOSS PER SHARE

Basic loss per share is computed using the weighted average number of common shares outstanding during the period. Diluted loss per share, which reflects the maximum possible dilution from the potential exercise of warrants and stock options, is the same as basic loss per share for the period ended. The effect of potential issuances of shares under options and warrants would be anti-dilutive for the three months ended March 31, 2023 and 2022 as they would decrease the loss per share, consequently the weighted average number of common shares outstanding for basic and diluted are the same.

12. RELATED PARTY TRANSACTIONS

Key Management Personnel Compensation

Key management personnel include those persons having the authority and responsibility for planning, directing, and controlling the activities of the Company as a whole. The Company has determined that key management personnel consist of executive and non-executive members of the Company's board of directors and corporate officers and/or companies controlled by those individuals.

Remuneration attributed to key management personnel during the three months ended March 31, 2023 and 2022 is as follows:

For the three months ended	2023	2022
Remuneration Share-based compensation	\$ 107,000 29,468	\$ 69,500 54,220
	\$ 136,468	\$ 123,720

During the three months ended March 31, 2023, the Company incurred \$17,000, in services from Mr. Kevin Farrell, to act as Chief Financial Officer ("CFO") of the Company.

As at March 31, 2023, amounts due to related parties totaled \$270,349 (December 31, 2021 – \$174,050) pertaining to amounts payable for key management remuneration, director's fees, and reimbursement of expenses paid on behalf of the Company.

13. LOAN PAYABLE

In May 2020, the Company benefitted from a \$40,000 Government of Canada Covid-19 "Canada Emergency Business Account" loan, administered by the Royal Bank of Canada. In January 2021, this loan was increased by \$20,000, or \$60,000 in aggregate. The proceeds of the loan are interest free until December 31, 2022, with a 25% balance forgiveness if repaid by that date. After December 31, 2022, the outstanding balance will accrue interest at 5% per annum and is due in full by December 31, 2025.

14. IXM CREDIT AGREEMENT

The borrower under the Credit Agreement is Scotia Mine Limited ("SML"), a wholly owned subsidiary of the Company through which it holds the Scotia Mine. The Company has agreed to guarantee the obligations of SML under the Credit Agreement. The Credit Agreement makes US\$24 million available to the Company until the earlier of, the commencement of commercial production at the Scotia Mine and December 21, 2023. The loan will be repaid over a 33-month period commencing nine months after the initial drawdown. Interest on the loan is of 3-month USD SOFR + 6%. In addition, the Company has agreed to pay IXM an arrangement fee of US\$180,000, and a monthly unused line fee of 2.4% (US\$48,000 per month). When the interest on the loan and these additional amounts are taken together, the effective interest rate paid is 10.38% per annum. The Credit Agreement contains standard conditions precedent to SML making draws. The Credit Agreement requires among other things that the Company has minimum tangible net worth of US\$6 million, maintains a total debt to equity ratio of less than 4:1, has minimum liquidity of C\$3 million and net debt to EBITA ratio of less than 1.5X, looking back on a quarterly and an annual basis.

An important term of the Credit Agreement is a "cost-to-complete" calculation carried out by a third-party technical expert employed for the benefit of IXM. If this calculation demonstrates that insufficient funding is available for the Company to put the Scotia Mine into commercial production, then (i) there is a draw stop and (ii) the Company is under an obligation to provide additional funding (either as equity or as loans to the SML which can only be repaid after repayment of the IXM credit facility). In addition, SML and the Company must maintain a C\$5 million cash escrow account to fund the ramp-up of production following completion of the project (and which must be topped up on an ongoing basis). There is a remedy period of 15 business days for any default except a payment default, which is 5 business days. Security for the loan is a conventional security package which contains all of present and after acquired property of SML, which includes all of the assets and real property comprising the Scotia Mine. As guarantor of SML's obligations, the Company has granted security by pledging its shares of SML in favour of IXM. IXM's recourse to the assets of the Company is limited to the Company's SML shares, which comprise substantially all of the Company's assets. The Company intends to repay the loan principally from the proceeds of the sale of zinc and lead concentrates from the Scotia Mine, once it is in commercial production, with such sales being made for at least the initial 10 years of operation of the mine, to IXM, pursuant to the Offtake Agreements.

15. SUBSEQUENT EVENT

Subsequent to March 31st, 2023, on May 2nd, 2023, the Company closed a non-brokered hard dollar and flow-through private placement for aggregate gross proceeds of C\$2,036,100 (the "Offering").

The hard dollar component of the Offering consists in the private placement of 3,722,200 units ("HD Units") of the Company (the "Hard Dollar Offering"), at a price of C\$0.50 per HD Unit for gross proceeds of C\$1,886,100, each HD Unit consisting of one common share of the Company (each an "HD Share") and one share purchase warrant entitling the holder to purchase one common share of the Company (each an "HD Warrant Share") at a price of C\$0.75 for each HD Warrant Share, until May 2, 2026. The Company will use the net proceeds from the Hard Dollar Offering to advance geotechnical and environmental bonding work at its wholly owned Scotia Mine, located 60 km north of Halifax (the "Scotia Mine"), to pay deposits for critical long-lead time equipment required to commence mining operations at the Scotia Mine, and for general working capital purposes.

The flow-through component of the Offering consists in the private placement of 250,000 flow-through units ("FT Units") of the Company (the "Flow-Through Offering"), at a price of C\$0.60 per FT Unit, for gross proceeds of C\$150,000, with each FT Unit consisting of one common share of the Company (each an "FT Share") and one half of one share purchase warrant entitling the holder to purchase one common share of the Company (each an "FT Warrant Share") at a price of C\$0.75 for each FT Warrant Share, until May 2, 2026. The Company will use the gross proceeds from the Flow-Through Offering to conduct exploration work on its mineral properties qualifying as Canadian Exploration Expenditures, as such term is defined in the Income Tax Act (Canada).

15. SUBSEQUENT EVENT (Continued)

Certain directors, officers, and other insiders of the Company (collectively the "Insiders") have acquired a total of 650,000 Units in the Offering. The participation of Insiders constitutes a "related party transaction", as such term is defined in Multilateral Instrument 61-101 - Protection of Minority Security Holders in Special Transactions and Companion ("MI 61-101"). The Company is relying on exemptions from the formal valuation and minority shareholder approval requirements provided under MI 61-101 on the basis that the participation by Insiders does not exceed 25% of the fair market value of the Company's market capitalization.

In connection with the Offering, the Company has paid C\$95,277 in cash compensation and issued 144,774 finder's warrants (the "Broker Warrants") to eligible finders for their assistance with the Offering. Each Broker Warrant is exercisable into a Common Share until May 2, 2026.

Subsequent to March 31st, 2023, on May 9th, 2023, a total of 1,210,000 stock options were granted to certain directors, employees and consultants of the Company at a strike price of C\$0.50 and expiring on May 9, 2028, subject to the Company's Stock Option Plan and the policies of the TSX Venture Exchange ("TSX.V").
